This report is an educational analysis of the credit data provided. It highlights what is helping and hurting the score, and gives a 90-day plan to improve it.

EXECUTIVE SUMMARY

Rohan shows a healthy repayment record across 6 credit accounts, with no overdue amount today and a 12-year-old credit file. The score of 742 sits in the Good band. Two short late payments in the last year are the only blemishes, and card usage is moderate.

What's Helping

No overdue balance, no write-offs, and 10 of 12 recent months paid on time on every active account. A long credit history (since 2016) adds strength.

What's Hurting

One 32-day delay on the Axis Bank personal loan and one 12-day delay on a Bajaj Finance loan. Most of the debt sits in a single home loan, and there were 3 enquiries in 12 months.

Top Priority

Keep every EMI on auto-debit for the next 3 months so no new delay is reported, and avoid new credit applications.

02 Top Risk Factors

The negative items below are, in order, pulling the score down the most.

1

HIGH

32-day delay on Axis Bank personal loan
A 32-day delay was reported in March 2026 on the Axis Bank personal loan. Lenders look closely at delays of 30 days or more, even when later payments are on time.

2

MEDIUM

Short delay on Bajaj Finance consumer loan
A 12-day delay was reported in June 2026. It is small, but it is recent and shows up in the last 12 months.

3

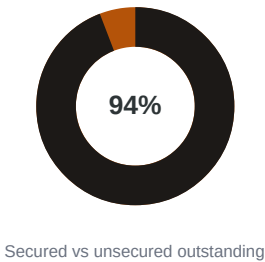

LOW

Exposure concentrated in one home loan
About 94% of total outstanding debt is the ICICI Bank home loan. This is normal for a home buyer, but leaves little spread across lenders.

Enquiry Activity

Member	Date	Purpose	Amount
BAJAJ FINANCE	2026-01-13	Consumer Loan	₹60,000
AXIS BANK	2025-05-02	Personal Loan	₹3,00,000
HDFC BANK	2025-02-11	Credit Card	₹2,50,000

06 90-Day Action Plan

Month 1 — Immediate

Set up auto-debit for the Axis Bank personal loan and the Bajaj Finance loan so no further delay is reported. Keep the HDFC card balance below 30% of its limit.

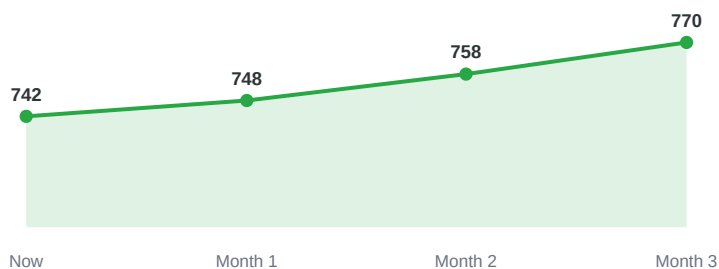

Month 2 — Stabilize

Pay the Bajaj Finance loan down further if cash allows, and avoid any new loan or card application so enquiries stay at three or fewer.

Month 3 — Accelerate

With three clean months behind, the two late marks begin to fade. Check the credit report again and consider a prepayment on the Axis loan.

Projected Score Trajectory

Projection assumes on-time payments on every account and no new credit applications. Scores are estimates, not guarantees.

Overall Recommendation

Suitable for a moderate unsecured limit or a secured loan at standard terms, with monitoring of the Axis Bank repayment pattern. Strong history and low overdue support approval; the recent short delays should be checked at the next review.
